# PE lessons

PE in term two will still be on Tuesdays and Wednesdays. Both sessions are led by our sports coach, Mr Hull.

Children should wear their PE uniform into school on these days. Please ensure that children wear the correct sports kit, with **no logos except the school logo**. Children not wearing PE uniform will be told to change and long hair must be tied up during PE.

# Reminder of school expectations

· Please email the school office if your child is permitted to **walk home by themselves**. Sea Turtles finish at 3:30pm.
· Children are **not allowed to have mobile phones** nor watches that take photographs or connect to the internet in school.
· **No jewellery** other than **single stud earrings** should be worn in school. Children will be told to remove any other jewellery, including hoop earrings, rings, bracelets and necklaces.
· Thank you for ensuring all pencil cases are **small enough to fit in a drawer**, instead of being larger, Smiggle-style case. All other stationery will be provided.
· **No toys** should be brought into school, **including fidget toys** – these will be provided for children with additional needs who require them by our SENCO.
· **Small backpacks** only, please, with a maximum of **one keyring** per bag (broken keyrings have caused great upset recently).
· Fruit or vegetable (unprocessed) snacks only for breaktimes, please; it is also important to remember that we are a nut-free site.
· On non-PE days, **plain black footwear** must be worn.

Thank you for your support in ensuring we maintain our consistent and fair standards across the school.

| Friday 18th Dec. | INSET – no children in school |

# Let's Get Physical

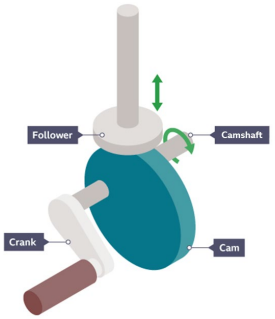

Our second topic this year is **Let's Get Physical**. Children will learn that light and sound are waves and about how we see and hear. They will learn the difference between sources of light and reflections, experiment with how light travels in straight lines, and understand why shadows are formed. They will also learn that sound is a vibration and that pitch and volume can be changed.

# Music

Years 5 and 6 will continue to have music lessons separately, both on Monday afternoons. Year 5 will continue the recorder with Mrs Bolt and Year 6 will continue the flute with Mr Looker-Jones. We have already been practising for the Carol Service and hope that you will be impressed by how much progress the children have made already on their new instruments.

# Design technology

We have a very exciting upcoming DT project: the children will be learning about cam-based mechanisms, including different types of movement that can be created using cams, before working in groups to design and make their own Christmas-themed automata toy!

# English

Our term two writing will all be inspired by an animation from The Literacy Shed, *The Lighthouse*. This short film tells the story of a coastal community that comes together when the local lighthouse goes out and a passenger ferry is sailing dangerously close to the rocks. We will be learning how to use a range of different sentence structures for effect, including multi-clause sentences, as well as how to use figurative language to develop descriptions in more vivid detail. In non-fiction, we will be writing journalistic reports, focussing on relative clauses, indirect speech, apostrophes for possession and the perfect form of the verb.

# Maths

Having already completed our units on place value, rounding, negative numbers, addition and subtraction during term one, we will be moving onto multiplication (including long multiplication) and division in term two, before also learning about multiples, factors, prime, square and cube numbers. If we have time, we will start fractions prior to Christmas, too.

# Harmony choir

The KS2 Harmony Choir will be meeting every **Thursday** evening from **week two** of term two and it would be lovely to welcome as many Sea Turtles as possible. We have some epic pieces planned and need as many voices as possible to bring them to life!
